

CREATIVE HOMEWORK ACTIVITIES

TERM: Spring

Due in week beginning 23.02.26

Please pick ONE of the following activities to complete with your child.

There have been lots of brilliant innovations over the years. Pick one, whether it is an invention, style of art/music or type of sport, and create a timeline to show how it has developed over time. Maybe you could try a stop/start animation!

Make a replica of a famous invention. You could draw a diagram with labels and annotations or make a 3D model of it. (Please remember that models should be no bigger than a shoe box).

Research the life of a famous designer or artist. Present your research in any form you choose for example PowerPoint, leaflet, poster, Ted Talk etc.

Decide with your family which is the most useful invention of modern times. Prepare a presentation to explain your reasons (speech, poster, PPT or booklet).

Use any of the ideas above to complete your homework task. Remember you can take pictures or be as creative as you would like to be.
